Located in a nice, quiet neighborhood with good schools and friendly neighbors, this comfortable 3-bedroom, 2-bath home is reasonably priced in today's competitive marketplace.

The area also offers convenient shopping including a large supermarket, a movie theater, and a leading department store, as well as a golf course nearby.

The 2,600 square foot structure was built in 1982 on an over-sized corner lot and is accompanied by a two-car garage. In addition, there is a large swimming pool and a working fireplace that serves both the living room and the family room.
